Functional and Logic Programming: 10th International Symposium, FLOPS 2010, Sendai, Japan, April 19-21, 2010, Proceedings (Lecture Notes in Computer Science)

This volume contains the proceedings of the 10th International Symposium on Functional and Logic Programming (FLOPS 2010), held in Sendai, Japan, April 19-21, 2010 at Aoba Memorial Hall, Tohoku University. FLOPS is a forum for research on all issues concerning declarative programming, including functional programming and logic programming, and aims to promote cross-fertilization and integration between the two paradigms. The previous FLOPS meetings were held in Fuji Susono (1995), Shonan Village (1996), Kyoto (1998), Tsukuba (1999), Tokyo (2001), Aizu (2002), Nara (2004), Fuji Susono (2006), and Ise (2008). Since its 1999 edition, FLOPS proceedings have been published by Springer in its Lecture Notes in Computer Science series, as volumes 1722, 2024, 2441, 2998, 3945, and 4989, respectively. In response to the call for papers, 49 papers were submitted. Each paper was reviewed by at least three Program Committee members, with the help of expert external reviewers. The Program Committee meeting was conducted electronically, for a period of two weeks, in December 2009. After careful and thorough discussion, the Program Committee selected 21 papers for presentation at the conference. In addition to the 21 contributed papers, the symposium included talks by three invited speakers: Brigitte Pientka (McGill University, Canada), Kostis Sagonas (National Technical University of Athens, Greece), and Naoyuki Tamura (Kobe University, Japan).

From reader reviews:

Eleonora Plunkett:

Nowadays reading books become more than want or need but also become a life style. This reading addiction give you lot of advantages. The advantages you got of course the knowledge the actual information inside the book that improve your knowledge and information. The knowledge you get based on what kind of reserve you read, if you want have more knowledge just go with education books but if you want experience happy read one having theme for entertaining like comic or novel. The particular Functional and Logic Programming: 10th International Symposium, FLOPS 2010, Sendai, Japan, April 19-21, 2010, Proceedings (Lecture Notes in Computer Science) is kind of publication which is giving the reader erratic experience.

Leticia Cantrell:

Hey guys, do you would like to finds a new book to learn? May be the book with the subject Functional and Logic Programming: 10th International Symposium, FLOPS 2010, Sendai, Japan, April 19-21, 2010, Proceedings (Lecture Notes in Computer Science) suitable to you? The actual book was written by well-known writer in this era. The particular book untitled Functional and Logic Programming: 10th International Symposium, FLOPS 2010, Sendai, Japan, April 19-21, 2010, Proceedings (Lecture Notes in Computer Science) is a single of several books which everyone read now. That book was inspired a number of people in the world. When you read this reserve you will enter the new dimension that you ever know just before. The author explained their plan in the simple way, therefore all of people can easily to recognise the core of this book. This book will give you a lot of information about this world now. So you can see the represented of the world on this book.

Jack Unger:

As a pupil exactly feel bored for you to reading. If their teacher inquired them to go to the library in order to make summary for some publication, they are complained. Just minor students that has reading's soul or real their pastime. They just do what the instructor want, like asked to go to the library. They go to at this time there but nothing reading significantly. Any students feel that examining is not important, boring along with can't see colorful pics on there. Yeah, it is to get complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore this Functional and Logic Programming: 10th International Symposium, FLOPS 2010, Sendai, Japan, April 19-21, 2010, Proceedings (Lecture Notes in Computer Science) can make you sense more interested to read.

Grady Comer:

Reading a e-book make you to get more knowledge from this. You can take knowledge and information from your book. Book is prepared or printed or descriptive from each source which filled update of news. In

this particular modern era like today, many ways to get information are available for you. From media social including newspaper, magazines, science book, encyclopedia, reference book, story and comic. You can add your understanding by that book. Do you want to spend your spare time to spread out your book? Or just in search of the Functional and Logic Programming: 10th International Symposium, FLOPS 2010, Sendai, Japan, April 19-21, 2010, Proceedings (Lecture Notes in Computer Science) when you desired it?
