Deep down in the ocean, strange things happen, acts of love that are unfamiliar to the human eye: Anchovies mate in large orgies; shrimp strip down to get in the mood; starfish can do it two different ways; whales fight to make love.

Inspired by the wonderfully odd and humorous short films created by Isabella Rossellini and released on DVD for the first time, *Green Porno* offers a visually arresting and scientifically accurate look at the sex lives of marine animals and other creatures. This book will make you see the animal kingdom as you never have before.
