Producer Gas: A Sketch of the Properties, Manufacture, and Uses of Gaseous Fuel (Classic Reprint)

Alexander Humboldt Sexton

Excerpt from Producer Gas: A Sketch of the Properties, Manufacture, and Uses of Gaseous Fuel

IN 1902 the Author gave a course of lectures on Producer Gas at the Technical College, Glasgow. These attracted considerable attention, and it was requested that they should be published. As there was no convenient book dealing with the subject, the Author thought such a one might be useful; so he has prepared this little book, which is based on the notes of the lectures. Owing to unavoidable circumstances, the publication has been some what delayed, but this has perhaps not been altogether a disadvantage.

The subject of gaseous fuel has been attracting a great amount of attention during the last few years, and very important advances have been made. The use of fuel gas is becoming every year more general, though the Author feels that at present it is only in its infancy, and that in the near future it will be used on a much larger scale, and for many purposes.

About the Publisher

Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com

This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
