## **The Possible Probable Future Mo Mockin**

Brooklyn is a child superstar, but everything changes when he is frozen in a tragic music video accident. A thousand years later, he is awakened by Carl the roboman to find out everything he ever knew is gone, and that he is now fifteen. When the wolfmen break in and capture him, in order to return home, Brooklyn must find a way to defeat the leader of the wolfmen, fix Carl, and get along with the highly opinionated brain of Ted Williams. It won't be easy in a world full of intelligent animals and emotional robomen. If it means blasting a challenger with a mini tornado, or rapping his way into the hearts of the wolf pack, Brooklyn must save himself to save mankind and possibly the world from the far reaching clutches of the transhumanist FM2030.
