Excerpt

Intuitive Healing isn't new. It's been around for centuries, but we have forgotten what it means to listen to our own body's messages. Instead, we have given our healing power away by not paying attention to our feelings and centered thoughts when we feel ill or are diagnosed with a disease. Intuition by definition is about knowing. Intuitive healing begins with discovering the vital energy within. There is nothing unusual about it. We all possess it. Each of us is our own best healer.

Coming to know this intelligence within manifests itself in many different ways. Some people view images in their mind, hear words, or feel sensations. Others pick up insights during their daily life which seem to come from others—from radio, television, or billboard advertisements. Wherever our insights arise from, we all possess the aptitude to recognize them and discover what is in our best interest.

Even if you have tried many times to perceive your internal messages, but feel that you possess no skill to do so—trust me you do. After working with thousands of clients, I've learned that everyone has the capacity to receive, interpret, and successfully use their senses. You have this ability because we are genuinely powerful. You might be unaware of your great fortune, but nevertheless you are powerful.
