## **Iran, Hussein's dilemma** Nigel Coulthard

Iran, Hussein's dilemma is a voyage of discovery of this fascinating and often misunderstood country. The journey starts at the heyday of the Shah's regime in the 1970s and takes us through the Islamic Revolution and the Iran-Iraq war to contemporary Iran, today under international sanctions for its controversial nuclear activity. Hard facts, geopolitics, historical details and analysis are combined with lively and poignant autobiographic anecdotes. The book is both informative and entertaining, using serious and humorous stories that help unveil the reality of Iran and the Iranians. It comprises three parts, the first dedicated to the generalities of Iran and its society, its idiosyncrasies and the psychology of its inhabitants. The second part looks at business and politics; misunderstandings by the West, missed opportunities with the USA and the nuclear question. The final section covers questions of management and the issues related to running a project or business in Iran. An insight is given into the nature of Iranian Capitalism and also to the specifics of everyday business.
