Weather Edward P Ortleb, Richard Cadice

The activities in this book center on the scientific study of the conditions of the atmosphere. Basic concepts in weather and climate are presented. Each of the twelve teaching units in this book is introduced by a color transparency that emphasizes the basic concept of the unit and presents questions for discussion.

Reproducible student pages provide reinforcement and follow-up activities. The teaching guide offers descriptions of the basic concepts to be presented, background information, suggestions for enrichment activities, and a complete answer key.
