## **The Executive Guide to Facilitating Strategy Michael Wilkinson STOP WASTING TIME DEVELOPING STRATEGIC PLANS THAT DON'T GET IMPLEMENTED!**

Far too often, people experience strategic planning as a wasted activity-painful, unproductive, and irrelevant to the issues at hand. And once planning is done, the product usually gets put on a shelf, never to be looked at again.

*The Executive Guide to Facilitating Strategy* provides executives, leaders and facilitators with a step-by-step resource for guiding their team through all phases of the strategic planning process - from gaining the team's buy-in to do planning and identify strategic issues, all the way through organization alignment, implementation, monitoring and making adjustments.

This book delivers the Drivers Model, a powerful tool to help you facilitate your organization through the development of a strategic plan from start to finish, whether you lead a corporation, government agency, non-profit organization, business unit, department, or team. The Drivers Model is a simple but dynamic process that covers the seven key principles for masterful planning, from thoroughly identifying critical issues to establishing a rigorous process for driving successful implementation.

You'll also discover -

- The 10 common planning pitfalls and how to avoid them;

- Strategies for setting measurable targets and deciding priorities;
- How to use critical success factors and barriers to focus your plan;
- Techniques for moving your values from a plaque on the wall to serving as a guide for decision-making every day; and
