Animals and War: Confronting the Military-Animal Industrial Complex (Critical Animal Studies and Theory)

Animals and War: Confronting the Military-Animal Industrial Complex is the first book to examine how nonhuman animals are used for war by military forces. Each chapter delves deeply into modes of nonhuman animal exploitation: as weapons, test subjects, and transportation, and as casualties of war leading to homelessness, starvation, and death. With leading scholar-activists writing each chapter, this is an important text in the fields of peace studies and critical animal studies. This is a must read for anyone interested in ending war and fostering peace and justice.
