Blood Collection in Healthcare

Marjorie Schaub Di Lorenzo, Susan King Strasinger

Blood Collection in Healthcare Marjorie Schaub Di Lorenzo, Susan King Strasinger

Designed for use in intensive one or two day courses for currently practicing healthcare professionals, this volume concentrates on the theory and technical skills of blood specimen collection. The user-friendly text provides a compact learning tool for the cross-training and continuing education of healthcare personnel. The basics of blood specimen collection are discussed, including: the types of blood required for specific lab tests; the purpose of the test; blood collection equipment; vein selection and alternate sites; types of collection tubes and the purpose of anticoagulants; the order of draw; test-specific handling; complications and remedies; and storage and transportation conditions. Current blood specimen collection equipment is covered, including the newest safety devices and technical procedures for venipuncture and dermal puncture.
