Virtual Pose 4 Mario Henri Chakkour

The sixth book in the "Virtual Pose" series, this is the only book of its kind to feature models posed in action or motion scenes in addition to traditional stationary poses. The PC/MAC compatible CD-Rom makes studying the figure easy and convenient - it's the next best thing to viewing a live model. Each of the 35 full-figure poses can be rotated 360 degrees for a total of 1,260 views. Every full-colour image can also be zoomed in on for detailed work and the use of the images in the book and accompanying CD make working with models simpler, affordable, and yet yield the same results as live models.
