Pocket Guide: Insects of East Africa Dino J. Martins

This book forms part of our growing Pocket Guide series. It will fill a gap in the East African market as there is currently no book on the subject for that region. The book covers close to 400 common and interesting insects found in the region. The focus will be on identification, but the book will also offer insight into life cycles and interesting behavior among certain insect groups. Full-color images accompany each species entry.
