Traumatic Brain Injury: Rehabilitation for Everyday Adaptive Living, 2nd Edition Jennie Ponsford, Sue Sloan, Pamela Snow

Research into the rehabilitation of individuals following Traumatic Brain Injury (TBI) in the past 15 years has resulted in greater understanding of the condition. The second edition of this book provides an updated guide for health professionals working with individuals recovering from TBI.

Its uniquely clinical focus provides both comprehensive background information, and practical strategies for dealing with common problems with thinking, memory, communication, behaviour and emotional adjustment in both adults and children. The book addresses a wide range of challenges, from those which begin with impairment of consciousness, to those occurring for many years after injury, and presents strategies for maximising participation in all aspects of community life.

The book will be of use to practising clinicians, students in health disciplines relevant to neurorehabilitation, and also to the families of individuals with traumatic brain injury.
