Brachial Plexus Lesions: Drawings of Explorations and Reconstructions by Algimantas Otonas Narakas

Brachial Plexus Lesions: Drawings of Explorations and Reconstructions by Algimantas Otonas Narakas

This unique text atlas on brachial plexus surgery and pathology describes 60 different lesions in very detailed and instructive color drawings by one of the foremost pioneers and experts in this field. After his death in 1993, Narakas is still greatly admired and many specialists are eagerly awaiting this book. Anatomical variations of the lesions, the problem and the surgical treatment are presented. Clinical data and follow-up of the patients are included with each lesion. Traumatic lesions, tumors and obstetric and irradiation lesions are presented.
