Homo Sapiens, Endangered Species C. D. Smith

Alien visitation and abduction is an obsession for many people. Many writers feed this obsession with stories about aliens who are malevolent beings whose sole objective is to annihilate and dominate the human race. If aliens do indeed visit our world, I envision them to be benevolent and non-interfering observers. My purpose in writing this book is to show them as beings who care about all sentients in the greater universe as we humans care about all the creatures on our world. Beings whose technology is far superior to ours and allows them to travel throughout the greater universe without consideration of the vast distances between galaxies. Beings that have evolved over many millennia compared with Homo sapiens mere 3,000 years.
