The stories in this book describe a personal encounter with the broader environment of the garden. Nature becomes this book and Human Nature becomes the story. These stories will show you how the garden can speak to you; that you can have an intimate relationship with it from your bicameral brain. The stories describe plaintive and enthusiastic reports from the garden that the author has faithfully translated.

By the end of this book, you will know that nothing is ever exactly as it seems...neither in the garden, nor in life, The stories in this book stress the magic the garden displays: that the seemingly ordinary is always extraordinary.

It becomes, when living life as part of the garden, that we seek to know the hidden dimensions. While often translated as a fable or a parable or an allegory, what is sought after is revealed in real events.

As the author, I am a simple garden scribe.
