The Only Windows Server Resource You Need

The single most comprehensive and understandable book on the subject, Mastering Windows Server 2003 continues author Mark Minasi's award-winning tradition of clear and comprehensive coverage of Microsoft's Windows Server products. This book shows you how to plan, configure and install your network, keep it running its best, and fix it if it breaks. And you still get all the coverage you need for the Windows 2000 Server installations that remain part of your environment.

Coverage includes:

- * Configuring IP, DHCP, DNS, and WINS to achieve the right foundation for your network
- * DNS explained in everyday English, from basics to advanced design
- * Designing, running, and maintaining Active Directory-based domains with Server 2003 and 2000 Server
- * Running your own Web, FTP, and e-mail server with 2003
- * Controlling hundreds, even thousands, of workstations with group policies and security templates
- * Tuning and monitoring your network
- * Securing your network from split-brain DNS to AD delegation to group policies, logs, IPSec, PKI and more
- * Using Windows Server 2003 to share Internet connections
- * Complete coverage of all new 2003 features

Real Solutions to Real Challenges

If improving the real-world performance of your network is the bottom line, this book delivers the goods. It shows you how to design and manage a multiple-platform network, build a Windows-based intranet, find the right data backup strategy, prevent and recover from disasters, and much more. There's no end to what you'll accomplish with practical, step-by-step instruction from the expert who has actually done it all on live networks!

From reader reviews:

Jaclyn Davis:

Here thing why this kind of Mastering Windows Server 2003 are different and reliable to be yours. First of all looking at a book is good nonetheless it depends in the content of it which is the content is as tasty as food or not. Mastering Windows Server 2003 giving you information deeper and different ways, you can find any guide out there but there is no book that similar with Mastering Windows Server 2003. It gives you thrill examining journey, its open up your own personal eyes about the thing in which happened in the world which is possibly can be happened around you. You can bring everywhere like in recreation area, café, or even in your approach home by train. When you are having difficulties in bringing the published book maybe the form of Mastering Windows Server 2003 in e-book can be your alternative.

Donald Cortes:

Now a day folks who Living in the era exactly where everything reachable by connect with the internet and the resources in it can be true or not require people to be aware of each information they get. How many people to be smart in obtaining any information nowadays? Of course the correct answer is reading a book. Examining a book can help individuals out of this uncertainty Information specially this Mastering Windows Server 2003 book because book offers you rich details and knowledge. Of course the information in this book hundred % guarantees there is no doubt in it everbody knows.

Mildred Kelly:

Reading a book tends to be new life style on this era globalization. With reading through you can get a lot of information that may give you benefit in your life. Having book everyone in this world could share their idea. Textbooks can also inspire a lot of people. Many author can inspire their very own reader with their story as well as their experience. Not only the storyplot that share in the guides. But also they write about the ability about something that you need example of this. How to get the good score toefl, or how to teach your kids, there are many kinds of book that you can get now. The authors these days always try to improve their ability in writing, they also doing some investigation before they write for their book. One of them is this Mastering Windows Server 2003.

Sharon Lopez:

As a student exactly feel bored in order to reading. If their teacher questioned them to go to the library or to make summary for some publication, they are complained. Just very little students that has reading's heart or real their interest. They just do what the trainer want, like asked to go to the library. They go to presently there but nothing reading critically. Any students feel that reading is not important, boring and can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important to suit your needs. As we know that on this age, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore this Mastering Windows Server 2003 can make you really feel more interested to read.
