A Chinese-American Exciting Journey Into the 21st Century K. P. Wang

The book is written in three parts, with Appendices, Maps, References and Photos. The first is a story of myself and immediate family, and the role we played in Chinese history. The second covers my extended family, and friends who have lived equally interesting lives. The third delves into all the major aspects of China's economy, resources, industry and infrastructure, etc, present and future. This section should interest most readers in business, industry, academic and government circles. I even tried to highlight events from history, geography, philosophy, religion, education, social welfare, agriculture, food supply, ecology, medicine, performing arts, tourism and sports, to science and technology, natural and human resources, heavy industry, "four electricals", transportation, aerospace, the military, and light industry. This book is much more than a memoir, and deserves to be treated as textbook material.
