## **Art and the Global Economy** John Zarobell

*Art and the Global Economy* analyzes major changes in the global art world that have emerged in the last twenty years including structural shifts in the global art market; the proliferation of international art fairs, biennials and blockbuster exhibitions; and the internationalization of the scope of contemporary art. John Zarobell explores the economic and social transformations in the cultural sphere, the results of greater access to information about art, exhibitions, and markets around the world, as well as the increasing interpenetration of formerly distinct geographical domains. By considering a variety of locations—both long-standing art capitals and up-and-coming centers of the future—*Art and the Global Economy* facilitates a deeper understanding of how globalization affects the domain of the visual arts in the twenty-first century.

With contributions by Lucia Cantero, Mariana David, Valentin Diaconov, Kai Lossgott, Grace Murray, Chhoti Rao, Emma Rogers and Michelle Wong.
