Laboratory Atlas of Anatomy & Physiology Douglas Eder

This full-color atlas is intended to effectively supplement the A&P laboratory course and aid students in their studies. Eder's high-quality visuals, in combination with its unique tables, make it a valuable supplement in any lab course. Tables include terms and definitions as well as descriptions of the origin, insertion, action, and innervation of muscles. This atlas illustrates the dissection structures as they actually exist, so students will be able to easily recognize the parts when they are dissecting or taking an exam.
