Lavin's Radiography for Veterinary Technicians Marg Brown, Lois Brown

Written by veterinary technicians for veterinary students and practicing technicians, **Lavin's Radiography for Veterinary Technicians, 5th Edition**, combines all the aspects of imaging — including production, positioning, and evaluation of radiographs — into one comprehensive text. Completely updated with all new vivid, color equipment photos, positioning drawings and detailed anatomy drawings, this fifth edition is a valuable resource for students, technicians and veterinarians who need information on the latest technology or unique positioning.

- **Broad coverage of radiologic science, physics, imaging and protection** provide you with foundations for good technique.
- **Positioning photos, radiographic images and anatomical drawings** presented side-by-side with text explanation for each procedure increases your comprehension and retention.
- **Objectives, key terms, outlines, chapter introductions and key points** help you organize information to ensure you understand what is most important in every chapter.
- **NEW! More than 1000 new full-color photos and updated radiographic images** visually demonstrate the relationship between anatomy and positioning.
- **NEW! All-new color anatomy art created by an expert medical illustrator** help you to recognize and avoid making imaging mistakes.
- **NEW! Non-Manual restraint techniques** including sandbags, tape, rope, sponges, sedation and combinations improve your safety and radiation protection.
- **NEW! Chapter on dental radiography** aids general veterinarian techs and those specializing in dentistry.
- **NEW! Increased emphasis on digital radiography, including quality factors and post-processing,** keeps you up-to-date on the most recent developments in digital technology.
