Written for third- and fourth-year medical students and interns, this practical pocket-sized manual provides up-to-date information that can be used while seeing patients in the examination room. The book is organized by chief complaint or problem, covers all problems commonly seen in an outpatient setting, and provides user-friendly information on differential diagnosis, history-taking, diagnostic tests, treatment, and patient management. The concise presentation is reinforced by mnemonics, "hot-keys", tables, figures, and algorithms.
