**Exopolitics: Politics, Government, and Law in the Universe** JD, MEd, Alfred Lambremont Webre  
EXOPOLITICS is the evolution of Alfred Lambremont Webre's groundbreaking work as a futurist at the Stanford Research Institute, where in 1977 he directed a proposed extraterrestrial communication study project for the Carter White House. Exopolitics may turn the dominant view of our Universe upside down. It reveals that we live on an isolated planet in the midst of a populated, evolving, and highly organized inter-planetary, inter-galactic, and multi-dimensional Universe society. It explores why Earth seems to have been quarantined for eons from a more evolved Universe society. Exopolitics suggests specific steps to end our isolation, by reaching out to the technologically and spiritually advanced civilizations that are engaging our world at this unique, challenging time in human history.
